File Setup

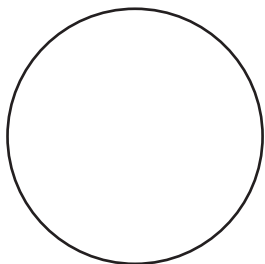

Supply us with a PDF, EPS, JPG or TIF File.

Files must be CMYK and include at least 3mm bleed. Ensure text and logos are at least 3mm inside the trim size. Avoid borders on your stickers, as there is a slight movement in the sticker print process that may make them uneven. Illustrator/EPS artwork: convert your text to outlines.

All prices include GST and Delivery (Australia Wide). Artwork is not included. Prices are based on you supplying us with print ready artwork. We like PDFs. Or we can create the design for you, small extra cost.
